

# COMMUNITY

We are knowledgeable in environmental drilling and have been responsible for proper construction of wells sites around East and South Kalimantan area.

Additionally, we provide the surrounding community with fresh clean water around PT. Bharinto Ekatama and Trubalindo Coal Mining to cater for the sites' needs throughout Kalimantan.

Care for the environment is one of our key responsibilities and an important part of the way in which we do business.

## ABOUT NMS

PT. Nariki Minex Sejati was established in Jakarta in year 1991 as a drilling contractor. The first activity commenced in 1992 at the coal exploration in Panajam, East Kalimantan, Indonesia. Established with only one Shallow Rig (Power Rig) unit, the company has now grown to be one of the largest companies in Indonesia to provide drilling service for exploration and blasthole industry.

Throughout the years, the company has undertaken major drilling services in Kalimantan region and beyond, such as Sumatera, Sulawesi, and West Papua.

Our company consists of over three hundred and fifty highly trained and experienced people, committed to provide excellent Drilling Services.

We operate with more than 60 exploration drills, in addition to over 30 drill and blast rigs units.

Drilling Services

Our Mining fleet consists of, among others :

- Rotary Drill Units
- Hydraulic powered track-mounted drill with boom system
- Top hammer fitted with hydraulic rock breakers
- ANFO explosive mixer
- A Fleet of approximately hundreds of 4WD Light Vehicles.
- Exploration Drill Rigs

## SERVICES

PT. Nariki Minex Sejati imports modern Drilling unit rigs from USA and Canadian companies such as, TEREX-Reeddrill, Reichdrill, Drilltech-Sandvik, Boart Longyear, and many more. We have well-maintained drilling fleets throughout the sites with many expert operators and crews undertaking major contracts, such as: PT. Kideco Jaya Agung, PT. Cipta Kridatama, and PT. Kitadin Indonesia for Blasthole Drilling Services.

### Mineral Exploration Drilling

Our range of specially designed and constructed rig fleet includes: truck mounted drill rigs, Portable Rigs, Skid Mounted Rigs which use the Wire Line System, Hydraulic Diamond core drill rig as well as the most popular JACRO units.

These rigs are available for Open Hole as well as Coring (45.00 mm for NQ & HQ to 61.10 mm) methods from 60 meters up to 200 meters depth hole.

For the mineral exploration drilling needs, we supply our clients with recognized units such as the Mayhew 500, Mayhew 1,000, Longyear LF 70, MJT 240 for 200 meter drilling depth. JACRO 175 up to 80 meter for HMLC and JACRO 200 up to 150 meter HMLC and Power Rig for up to 70 meter using NMLC Core Diameter.

### Water Well Drilling Services

We are experienced in water well drilling and installation. We are capable of well construction utilizing mud or rotary as well as the Screen, PVC casing, Galvanized Pipe, Electrical and sub-submersible pump installation in water well.

### Drilling and Blast in open-pit mine and Quarry

Operated by our professional personnel, the hydraulic crawler drills enable us to meet the demand of production drilling for quarries and surface mining operations. Pioneering development drilling activities to provide level work areas for larger equipment to work. Our Rotary and Top Hammer Hydraulic drill fleet currently includes Reeddrill SKF infinity Blasthole drills, Reichdrill 450- 700c Series. Drilltech D245 is dedicated to drill with diameter of 152-229 mm; and our Ingersoll-Rand ECM 370 machines is capable of drilling diameters in the range of 64-102mm. These equipments facilitate precise blast hole positioning to provide optimum blasting results tailored to our customer's requirements.

## CLIENTS

PT. Nariki Minex Sejati continues to earn customer satisfaction and trust by providing excellent drilling services as well as an ongoing support in drilling demand. We share a common goal to ensure that our client's needs are always prioritized.

Some of our clients include:

- PT. Kideco Jaya Agung
- PT. Kitadin Indonesia
- PT. Cipta Kridatama
- PT. Bukit Makmur Utama
- PT. Adaro Indonesia
- PT. Pama Persada Nusantara
- PT. Gunung Bayan Pratama
- PT. Kaltim Prima Coal
- PT. Trubalindo Coal Mining
- PT. Kimco Armindo
- PT. Langgeng Daya Agrindo
- PT. Multi Harapan Utama
- PT. Jorong Barutama Greston
- PT. Tanito Harum
- PT. Saptalindra Sejati
- PT. Bharinto Ekatama
- PT. Bokormas Wahana Makmur
- PT. Riau Bara Harum
- PT. Gracemount Pesut Jaya
- PT. Sims Jaya Kaltim

Our goal is to provide a safe and effective drilling and blasting services to the mining industries throughout Indonesia professionally.

Our staff and crews are trained with the highest standards to ensure that all equipments are operated safely and efficiently.

## SAFETY

Our Company boasts an excellent safety record and is continuously striving to offer our clients the best and safest drill and blast service in the industry

We develop a company culture where everyone take responsibility for safety and maintains that as our number one priority.

Evidently, in reunt years, we have received safety awards from our clients for being accident free on site and also for our commitment to safety procedures and awareness on site.

Our drilling and blasting team is made up of dedicated individuals who pride themselves on delivering the best possible result.
